

BERADICAL FOUNDATION

"Changing the world one step at a time"

GARBAGE COLLECTION

We are committed to empowering underprivileged communities by providing educational opportunities, sustainable solutions, & resources to ensure long-term positive change.

"Changing the world one step at a time"

About us

Who we are

We are a community-based organization(CBO) that focuses on addressing the needs of the most vulnerable members of society, particularly women and children.

Our work centers on providing educational resources, creating empowerment opportunities and promoting ecological awareness. We believe that by working closely with local communities, we can create a brighter and more sustainable future for everyone involved.

Our Vision for Change

Our vision is to see a world where every individual, no matter their background or circumstances, has access to the tools and opportunities they need to succeed.

We are dedicated to providing education, nurturing the environment and promoting positive community practices that will uplift generations. Our goal is to create lasting change by addressing the root causes of poverty, inequality and environmental degradation.

"Changing the world one step at a time"

Vision

To create a world where every child, young person and community member has the chance to build a better life, free from the constraints of poverty, inequality and environmental degradation. We envision communities that thrive on education, sustainability and collective responsibility for a better future.

Mission

We aim to provide educational opportunities, environmental awareness and community support to underprivileged groups in Kenya.

Our goal is to break the cycle of poverty by empowering individuals with the skills, knowledge and opportunities they need to succeed.

Milestones

Turning Challenges Into Milestones

Over the years, BeRadical CBO Kenya has achieved significant milestones that reflect our commitment to positive change. From environmental clean-up efforts to youth empowerment programs, we are proud of the progress we've made and excited about what the future holds.

Giraffe BioEnergy Partnership

This innovative project focuses on educating communities about the sustainable use of cassava as a natural cooking fuel. By replacing traditional, harmful cooking methods, we are helping to protect both the environment and human health. The Giraffe BioEnergy Partnership empowers local women with agricultural knowledge, giving them the tools to create a safer and more sustainable way of life.

Beach Clean-Up Initiative

One of our most successful initiatives has been organizing beach clean-ups along Kenya's coastline. These efforts not only protect the natural environment but also serve as team-building activities that bring volunteers together. Through these clean-ups, we continue to promote environmental stewardship and community collaboration.

Community Development and Youth Empowerment Project

At Lea Mwana, we have improved the living conditions for children and staff while creating opportunities for community members to volunteer and support those in need. Our Youth Empowerment Project provides educational activities that foster self-respect, teamwork and valuable skills for success in social, academic and work environments.
